I passed my CCNP 642-801 exam. I bought your product and I found it very usefull.

I scored 953

I wrote yesterday, and I scored 953. In all my certification years, I never found an exam so easy. Your product is really wonderful. I am already in the process of purchasing 642-811 from PrometricVUE.

I passed 70-290 today with a 1000 score.

I passed 70-290 today with a 1000 score. I have several certifications and have used all sources to prepare for tests in the past. I have never come close to a perfect score but today I got one and I thank you guys at PrometricVUE. I swear I thought I missed a couple of questions but overall I knew that I did well, the 1000 blew me away. Thank you!

I passed the server (70-290) last week and I am moving on with the XP.

Thanks PrometricVUE. Keep up the good work. ;-)
